

School Year/School Calendar/Instruction Time

Prior to the end of each school year, the Board of Education (the “Board”) for Mapleton Public Schools (the “District”) must determine the length of time during which District schools must be in session during the next school year. The number of hours/days of planned teacher-student instruction and of teacher-student contact must be consistent with the Board's definition of "actively engaged in the educational process," must meet or exceed the requirements of State law, and must include a sufficient number of days to allow the Superintendent flexibility in preparing a calendar that supports the District’s educational objectives.

The Board defines "actively engaged in the educational process" as a time when students are working toward achieving educational objectives under the supervision of a licensed teacher, including:

- classroom instruction time;
- individual student work time while at school, including study hall and library research;
- school-related field trips;
- independent study insofar as such study is allowed under District policy; and,
- assemblies.

For the purpose of online instruction, the definition of “actively engaged in the educational process” includes all of the above and instruction delivered electronically and/or the use of other types of independent, remote work time for students provided under the supervision of a certified or licensed teacher. Remote learning days may include the use of: Mapleton Online, services provided with Colorado Digital Learning Solutions, any assigned and prepared work packets, pre-recorded classes, or other methods utilized by the teacher and school. Teacher-pupil instruction and contact time may be tracked and counted for attendance purposes occur in the following ways:

1. Presence during in-person instruction;
2. Assignments completed at home;
3. Logging into the online learning platform;
4. Signing an online form attesting to work completed at home;
5. Student demonstration of learning;
6. Responding to teacher emails or communication.

Attendance will be recorded at least once daily for days when instructional hours are provided, meaning a student is “actively engaged in the educational process.”

"Actively engaged in the educational process" does not include:

- lunch;
- time students spend before school waiting for classes to begin;
- time after the last class of the day, including waiting for the bus; and
- teacher preparation time.

Supervision by a licensed teacher must not require that the teacher be in the student's physical presence at all times, but that the teacher is exercising direction and control over the nature of the student's activities.

The District calendar for the next school year must be prepared by the Superintendent (or designee) and presented to the Board for approval in the spring of each year. The Superintendent (or designee) must consult with other Districts in the area when preparing the calendar.

The Board authorizes the administration in each school building to issue a school calendar based on the District calendar and in accordance with this policy. Administrators are encouraged to examine instruction time and calendar issues in the context of supporting the District's educational objectives.

Calendars must include the dates for all staff in-service programs scheduled for the upcoming school year. The administration will allow public input from parents and teachers prior to scheduling the dates for staff in-service programs.

A copy of the calendar must be provided to all parents/guardians of students enrolled in District schools and will be available on the District website. Any change in the calendar, except for emergency closings or other unforeseen circumstances, must be preceded by an adequate and timely notice of no less than 30 days.

Adopted June 27, 2017, by the Board of Education for Mapleton Public Schools.
