### **Mapleton Public Schools 2022-2023 Budget Executive Summary**

This executive summary is intended to provide a quick reference to the many numbers that are contained in the district budget. The summary is divided into several sections. First is a series of definitions that are necessary to understand the budget document. Second is a brief analysis of the economic environment that this budget is presented in. Third is a brief discussion of each of the funds within the budget. Finally, the numbers are presented by fund.

The Administration presents this information both to comply with its legal requirement and share with our stakeholders the financial workings of the district. We look forward to any questions that this document may bring up.

### **Definitions**

School district budgets can be very overwhelming documents. There are a variety of terms that are used that need to be understood for stakeholders to effectively navigate this document.

<u>Fiscal Year:</u> The fiscal year is the time period in which the identified revenue is collected, and expenses incurred. The fiscal year in this document begins on July 1, 2022 and ends on June 30, 2023.

<u>Fund:</u> Accounting structure used to collect revenue and report expenditures subject to the restrictions established by State or Federal law.

<u>General Fund</u>: The primary operational fund for Mapleton Schools. Revenue sources include local property taxes and state aid. Expenses include salaries, benefits, supplies, technology, maintenance, custodial services, transportation.

<u>Risk Management Fund</u>: The operational fund used to report payments for property and liability insurance premium, and self-fund claims that fall below the district deductible. General fund transfers support the expenses in this fund.

<u>Colorado Pre-school Program Fund</u>: The operational fund for the Mapleton preschool program. Revenue sources include tuition and state aid. Expenses include salaries, benefits, supplies for the preschool program.

<u>Student Nutrition Fund</u>: The operational fund used to report the district's student nutrition program. Revenue collected in this fund is from parents and students paying for lunches and USDA reimbursements. Expenses include food, supplies, salaries and benefits of student nutrition staff.

<u>Grant Fund</u>: The operational fund used to report all Federal, State, and private grant funds. The revenue supporting this fund comes from Federal, State, and private grants such as Title I, Gifted and Talented, Walton Family Foundation. The expenses reported in this fund are dictated by the specific terms of the various grants recorded in the fund.

<u>Student Activities Fund</u>: The operational fund used to report the various cocurricular and extra-curricular clubs and programs offered in the district. Revenue collected includes student fees and fund raisers. Expenses are directly associated with the events the various organizations participate in.

**Bond Redemption Fund:** The operations fund used to report the accumulation of the tax paid to repay bonds issued by the district. The expense in this fund is the principal and interest payments on those bonds.

<u>Capital Projects Fund</u>: The operations fund used to report major construction or renovation projects funded by bond proceeds.

<u>Capital Reserve Fund</u>: The operational fund used to report payments on the district COP's at Skyview and Broadway campus. Used also to fund major capital purchases such as vehicle replacement, building maintenance projects not funded through bond proceeds, like HVAC upgrades, parking lot renovations, furniture replacement. General fund transfers support the expenses in this fund.

### **Economy**

The 2022-2023 Mapleton Public Schools budget has been developed under a transitional economic environment. COVID -19 is still a concern but appears to be moving into an endemic phase in the United States. Supply chain disruptions and increasing demand for various goods and commodities have brought forward significant inflationary environments. Additionally labor shortages in many industries including education are creating a challenge fully reopening the economy and delivering needed primary services.

Colorado continues to exceed initial forecasts during the recovery. This created a positive fiscal climate for both the governor and general assembly. Legislation to significantly reduce the budget stabilization factor, enhancement to the at risk funding calculation, and significant increases to the per student funding factor are all highlights of this session.

Residential housing values continue to increase in the metro Denver market. This will again translate to an increase in valuation in the Mapleton District. This increase in valuation will increase the local tax effort that support Mapleton Schools. Equalization

levels the overall effect of this valuation increase, it does make the district less dependent on state equalization payments, and that makes the district less affected by changes to the state share payment. Currently the district receives over 58% of its funds from the state share payment.

Interest rates have started to rise but are still historically low. This has assisted in the increase in residential valuations and continues to allow entities to borrow at historically low rates. This district continues to engage the community and discuss the completion of the facility renovation project. This "Final Four" discussion is taking place at a time when bond issuance costs are very low. This also is a positive for the district.

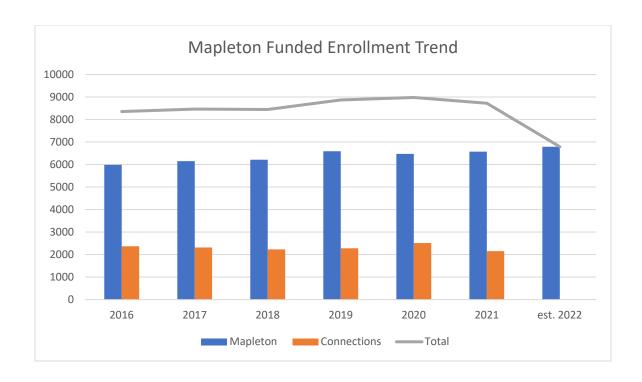

The Federal environment has also changed in the last 12 months. Federal funds to fight the pandemic are being spent down. Mapleton has received over 12 million dollars through the (ESSER) Elementary and Secondary School Emergency Relief Funds. These funds allowed Mapleton to continue with in person learning during 2021-22 fiscal year. This budget absorbs 9 million dollars of the ongoing programing from these Federal funds to avoid any potential fiscal cliff. Next year will end the districts use of pandemic relief funds.

Included in the American Relief Act is additional funding for Individuals with Disabilities Education Act, and Homeless children relief. The budget and planning for these funds to meet the needs of these target populations.

The rest of the anticipated Federal agenda that we mentioned last year has stalled in Washington. The exception was the bipartisan approval of the American Jobs Act. This law injects 2 trillion dollars into infrastructure repair and maintenance all across the country. We are still determining if any of these funds will be available to k-12 school districts.

#### **Enrollment**

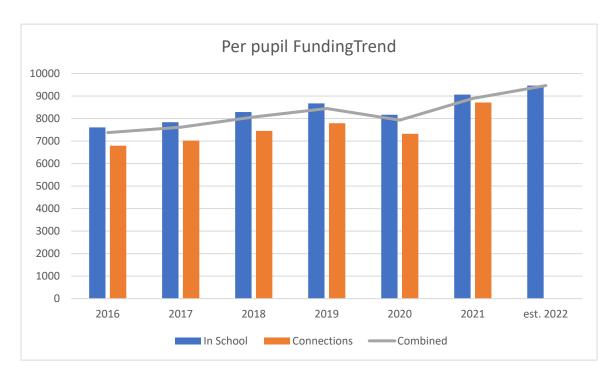

Funding in Colorado continues to be based on student enrollment, and a per pupil allocation determined by the state. The last 3 years shows an improvement of the per student factor:

The graph shows a stable increase in funded enrollment. Connections Academy will no longer be authorized by Mapleton. The overall decrease in enrollment is the result of this change. Mapleton will continue to support Mapleton On Line as an internal mutidistrict on line school. The estimate for next year is a total enrollment is a continuation of the overall trend. The estimate is taken from the Governor's Budget Request worksheet. This indicates an in school funded enrollment of 6787.9. This includes pre-K enrollment of 212.5, on line enrollment of 310.0, and brick and mortar enrollment of 6264.4.

### **Per Pupil Factor**

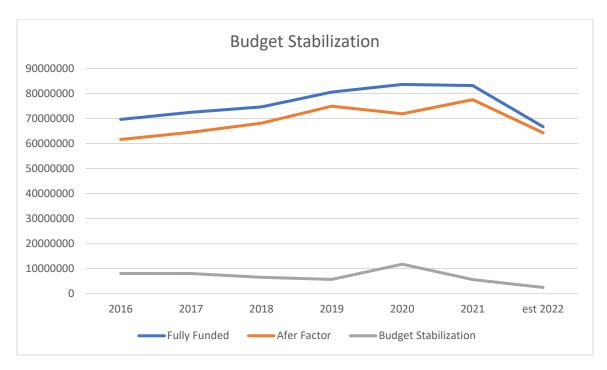

The per pupil funding factor is the multiplier to enrollment that creates the total program amount. The graph below shows the trend:

Mapleton on-line is funded at a reduced amount the same as Connections Academy. Since this will no longer be pass through funding that amount is not separated in the bar chart.

### **Budget Stabilization Factor**

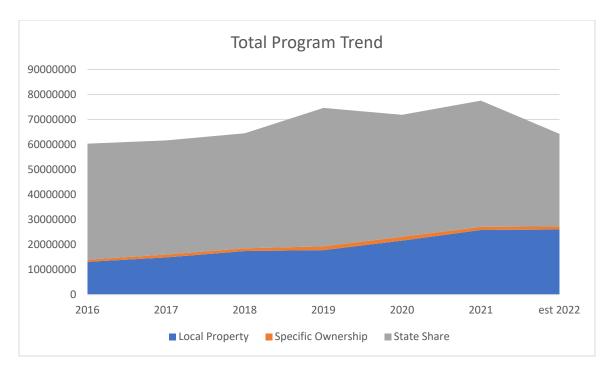

The budget stabilization factor is a holdover from the 2008 recession. The factor is the method the General Assembly has used to balance the state budget and finalize the total program funding for k-12 school districts. The graph below shows the trend:

Since the spike at the beginning of the pandemic, the chart shows the continued progress in buying down the negative factor. The state is very nearly funding education at the full amount. A continued strong economic recovery will determine is the state is able to continue to reduce this negative amount.

### **Total Program Funding**

The total program makes up the bulk of the revenue received to educate students in Colorado. This is made up of local property taxes, 50% of the specific ownership taxes, and a state equalization payment. The graph shows the trend:

The overall decline in total program funding is the result of the Connections Academy authorization. Mapleton continues to increase the amount of property taxes that are used to fund the district, however we still receive 58% of our annual revenue from the state equalization payment.

Mapleton is somewhat unique in that the district is not part of an incorporated municipality. The local share has a very minimal amount of commercial property that is taxed, and the specific ownership tax is a finite portion due to the lack of commercial, and retail space in the district. Mapleton is more reliant than other districts on the state share payment due to this unique demographic.

### **TABOR Reserve**

Article X section 20(5) of the Colorado Constitution requires the district to set aside 3% of its fiscal year spending excluding bonded debt service as the TABOR reserve. The district can satisfy this 3% reserve by using cash, letter of credit, or pledge of real property. The district has investigated this issue over the year and determined that pledging real property to satisfy the requirement provides needed flexibility in using the district cash reserves.

The district will be sending notification to both the Colorado Department of Education and Colorado Office of the State Treasurer upon approval of the 22-23 budget. The property identified as the TABOR pledge is a lot located at 10310 York Street, Thornton, CO. The opined value is estimated at a range of 3,000,000 – 4,000,000 Dollars.

### **2022-2023 Board Priorities**

Annually the Board of Education reviews and updates the priorities for the district that were set in the prior fiscal year, and those to be used to develop the budget in the coming fiscal year. The priorities established by the Board of Education are:

- 1. Mental health supports for students and staff
- 2. Continuation of the UVA leadership development program
- 3. Safe and secure campuses
- 4. Open the Valley View building, Performing Arts Academy, and Mapleton Online School
- 5. Competitive preschool and pre- k programming
- 6. Continued focus on completing the construction bond program
- 7. Continuation of the Mapleton Online program
- 8. Successful transition from COVID funding
- 9. Continued competitive compensation for staff

These priorities are reflected in the various funds of the overall district budget.

#### Conclusion

The priorities described are the focus of this year's budget and are reflected in the reduction in the Grant fund of the COVID grants. The building fund reflects the continuation of the construction program in its final phase. UVA work continues to be funded with COVID funds and mental health supports are reflected in the budgets for Integrated Services and Special Education.

The district continues to effectively utilize the Federal relief funding as a temporary support to buy time as we incorporate needed programming into the General Fund. The pace of the post-pandemic recovery, inflationary economic impacts, and the outcome of any mill levy election will determine how much the district is able to do in future years.
